Recognizing the Excellence in Every Student!

Country Club Middle School

WHAT IS DISTANCE LEARNING?

Distance learning is a method of study in which course content, assignments, and communication are held over the Internet. Throughout the years, MDCPS has compiled a comprehensive collection of online content and digital resources to aid in distance learning so that students can continue their learning without interruption. During the time of our school closure, you should continue learning online by completing assignments and tasks, as assigned by your teacher.

Please visit our school's website to find important information from your specific teacher and class.
